## PROJECTS

### Portfolio [[In Development](#)]

A central Hub to showcase previous projects, my design skills and experience, and Provide an easy avenue to get into contact via email or phone.

### Janique Mynot Realty [[In Development](#)]

Cross Browser friendly and responsive real estate portfolio for Janique Mynot, using **SASS**, **SEO**, and **JavaScript**, as well as providing hosting and setting up a domain name.

### PoxRaze [[In Early Development](#)]

A database for Poxnora, a Turn-based Strategy Game with over 2000 runes and abilities. Allows users to quickly and easily get information on the thousands of runes. Implement **API** fetch and render requests. Work with **REACT**.js framework, optimizing large amounts of data.

## SKILLS

- **DEVELOPMENT** – Experience with Python, JavaScript, PHP, React, and OOP.
- **DEVELOPMENT** – Experience with SASS, Responsive Design, WordPress, and Version Control.
- **LEADERSHIP** – Proven track record of success working with groups and group leadership
- **EDUCATION** – Foundations of hardware and software knowledge.
